Hi Jerzi,

Thanks for your answer Jerzi. Yes you have understood I need.

Sometimes I only receive a confirmation request for a QSL on the same day. In this case I have only one QSL to do with a contact. Sometimes there are several contacts for the same QSL in this case no problem with the 3 lines template.

I have already redone the template with the band in place of the frequency.

I will redo a new template with only one line of QSOs for the different QSL.
