Full version history for   LOOKING_HAM_DATA I describe on this page
http://   sp9auv.com/EN/index.html?downloading_looking_ham_data_and_ve rsion_history.php
Bellow is decribing two last version

Looking_HAM_DATA version 2.0.6 at 16.03.2015 year
In this release was do the following changes:
• Due to the overall changes in the server HAM_QTH.COM   I do completely new module . dll for
the service and retrieve data from this server.
• Some components in the program were replaced with new components more safer. .

Looking_HAM_DATA version 2.0.5 at 12.09.2014 year
In this release was do the following changes:
1. Fixed a bug which was present when logging on to a server QRZ.COM
2. Because now is need login to the server HAMQTH.COM was made
changes in
the program and in the DLL supports this server.
3.   Changes were made to the server HAM_CALL.NET due to a server and this
significantly reduced the download to a few callsiggns, preferring to purchase
the database of addresses on the DVD .This not improved significantly downloading data.
This server must be considered as secondary.
4. File Countries_without_QSL_bureau.txt was corected based on comments provided by the
station IK2CBD Adriano.
5. Field ZIPP now is saved in output .adi file , although the field is not present in standard ADIF .

Looking_HAM_DATA version 2.0.7 at 04.05.2015 year
• In this release was do the following changes:
• Removed saving the file WebSite.txt by the program as it is totally unnecessary
• Fixed login to the server QRZ.COM - because in the previous version, although properly do
login to QRZ.COM program claimed that it is not
   logged into QRZ.COM. The reason was that the changes was made at QRZ.COM
• Fixed indication login to the server HAM_CALL.NET, because as a result of changes on the
server it was not indicated correctly
• Improved data collection data if the row is empty. For QRZ.COM server it put there random
data, which then be saved to an output file.
